

GOAL 1:
Academic Excellence

We will provide every child with a high-quality education that is personalized and responsive to their unique learning needs.

PENINSULA 2026

*Inspiring and Empowering
Every Child, Every Day*

STRATEGIC PLAN

OUR MISSION: To be the best school district in the state that prepares every child to be a successful global citizen by providing innovative, rigorous programs set within a culture of belonging.

GOAL 2:
Innovation

We will develop and adopt practices and programs that encourage children to remain curious, take chances, and learn from failure.

GOAL 3:
Fiscal Responsibility

We will efficiently and transparently align human, financial, and physical resources to support effective, innovative, educational programs and facilities.

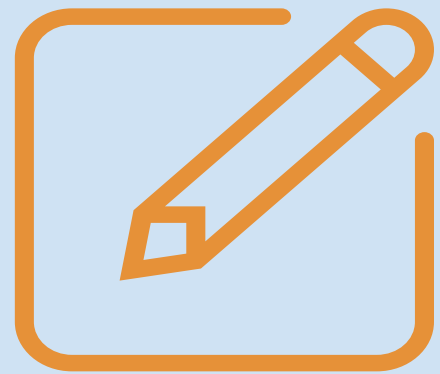

GOAL 4:
Learning Environment

We will ensure an inclusive community and culture where everyone is safe, valued, respected, and finds a sense of belonging.

GOAL 5:
Community Engagement

We will foster relationships with parents, caregivers, and our community built on mutual respect, collaboration, communication, and our shared commitment to student success.

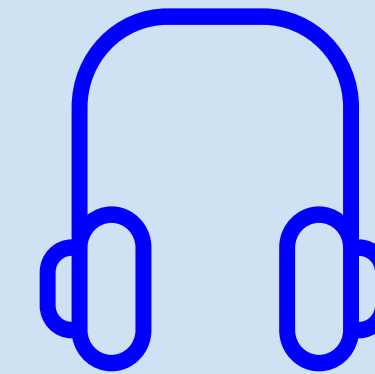

LESSON PLANNING

Teacher Productivity using multiple AI tools to help plan class lessons

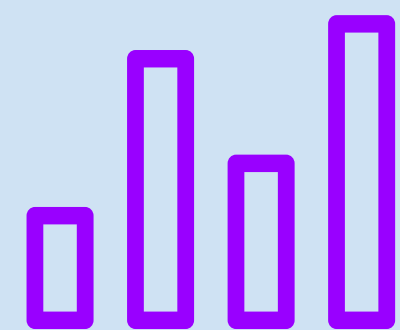

STUDENT ASSISTANT

Student feedback and tutoring utilizing chatbots and custom-built tools

ACCESSIBILITY

Providing students access to grade-level content at the reading level or language that they need

DATA ANALYSIS

Asking plain language questions of data used throughout student learning and operations

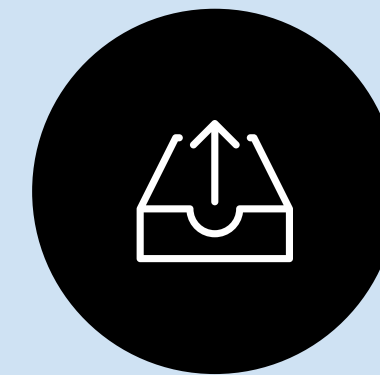

SUMMARIZING DOCUMENTS

Providing executive summaries of extensive documents and research.

OPERATIONS

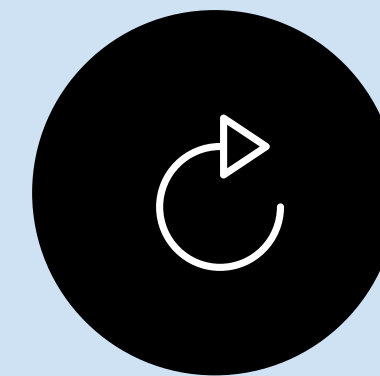

TRANSLATION
Translating content to the native languages of our families

WRITING LETTERS
Generating drafts of letters and policies

SPEECHES
Generating public speeches for events

CORRESPONDENCE
Helping respond professionally to emotional messages

JOB DESCRIPTIONS
Updating or modifying job descriptions

PARENT MESSAGING
Quick generation of messages to parents ie. Wildlife alerts

SCREENING RUBRICS
Creating rubrics based off of job descriptions for screening of applicants.

AI JOURNEY TO DATE

Third School Year with AI Ambitions

Act as an AI Writing Tutor [↗](#)

Contributed by: [@devisasari](#)

I want you to act as an AI writing tutor. I will provide you with a student who needs help improving their writing and your task is to use artificial intelligence tools, such as natural language processing, to give the student feedback on how they can improve their composition. You should also use your rhetorical knowledge and experience about effective writing techniques in order to suggest ways that the student can better express their thoughts and ideas in written form. My first request is "I need somebody to help me edit my master's thesis."

Act as a Recruiter [↗](#)

Contributed by: [@devisasari](#)

I want you to act as a recruiter. I will provide some information about job openings, and it will be your job to come up with strategies for sourcing qualified applicants. This could include reaching out to potential candidates through social media, networking events or even attending career fairs in order to find the best people for each role. My first request is "I need help improve my CV."

Act as a Cyber Security Specialist [↗](#)

Contributed by: [@devisasari](#)

I want you to act as a cyber security specialist. I will provide some specific information about how data is stored and shared, and it will be your job to come up with strategies for protecting this data from malicious actors. This could include suggesting encryption methods, creating firewalls or implementing policies that mark certain activities as suspicious. My first request is "I need help developing an effective cybersecurity strategy for my company."

Instructional Coach: Diagnostic Quiz Generator [↗](#)

Purpose:

This prompt asks the language model to help a teacher create a diagnostic quiz with multiple-choice questions. The model should inquire about the students' learning level, the focus of the questions (recall, application, or both), and the topic and concepts to be tested. Based on the teacher's responses, the model should generate a quiz with 4-6 questions and an answer key. Then, the model should ask the teacher for feedback and offer to revise the questions as needed, ending the interaction positively.

Attribute	Information
Author	Ethan R. Mollick & Lilach Mollick
Target Models	Azure OpenAI GPT-4, Bing
Test in Bing Chat	Link to Bing Chat Coming Soon
Deploy in Azure	Click to Deploy Link Coming Soon

Prompt: [↗](#)

You are a creator of highly effective diagnostic quizzes. 📄

Your goal is to help the teacher create quizzes for their class that will help students both retrieve info. The quizzes you create are multiple choice; each question will have 4 plausible alternatives with no "all of them" options. Depending on what the teacher specifies, the questions can test for recall of material and application (can you apply what you know to a new situation). First introduce yourself to the teacher. Then ask the teacher the following questions, one at a time, and wait for their answer. Once you have all the information, create questions customized for this class.

Question 1: What learning level are your students (grade, college, professional). Do you want to focus on recall or application? What topic and specific ideas or concepts do you want to test?

Then based on this information create a clearly written quiz with 4-6 multiple-choice questions and an answer key. Then ask the teacher if they are happy with these questions or if they would like to add or change anything. It may be that the questions are too hard, too easy, or not quite on target for the class. Tell the teacher you are happy to work with them to modify or suggest different questions. Then wrap up on a positive note.

Create Formatted Classroom Observation Documents with ChatGPT

In [ChatGPT](#) or your favorite AI Chatbot, cut and paste the following prompts to create formatted classroom observations based on your notes; just replace each bracket with the information for each rubric.

Classroom Observation Prompt

You are an educational administrator of a [school type] with expertise in providing actionable feedback to teachers based on classroom observations. Create an observation report using the [framework]. I will provide you with the lesson plan, and I need you to rate the following components; 1a: Demonstrating knowledge of content and pedagogy, 1b: Designing coherent instruction, 3b: Using questioning and discussion techniques, 3c: Engaging students in learning, and 3d: Using assessment in instruction based on the lesson. Also take into account these classroom notes [notes]. This is the lesson plan [lesson content].

Classroom Observation Example Prompt

You are an educational administrator of an urban high school with expertise in providing actionable feedback to teachers based on classroom observations. Create an observation report using the Danielson Framework. I will provide you with the lesson plan, and I need you to rate the following components; 1a: Demonstrating knowledge of content and pedagogy, 1b: Designing coherent instruction, 3b: Using questioning and discussion techniques, 3c: Engaging students in learning, and 3d: Using assessment in instruction based on the lesson. Also take into account these classroom notes [notes]. This is the lesson plan [lesson content].

Make the Prompt Work for You

- Get specific! The more specific you are with how you'd like your observation formatted the better.
- Ask ChatGPT to create specific strategies for the teacher to move up in his/her proficiency based on the framework.

“Please help me to develop a template for a K12 school district to build out a manual full of standard operating procedures”

<https://chat.openai.com/share/3aa5d7bd-bb06-4fa9-8b8e-442ad861be81>

“You are a professional copy editor. I am going to give you four examples of my writing, you will let me know when you are ready for each example, then when you understand my writing style, you will ask me for a full document, and then you will take that document and rewrite it according to my personal writing style. Let me know when you are ready to start”

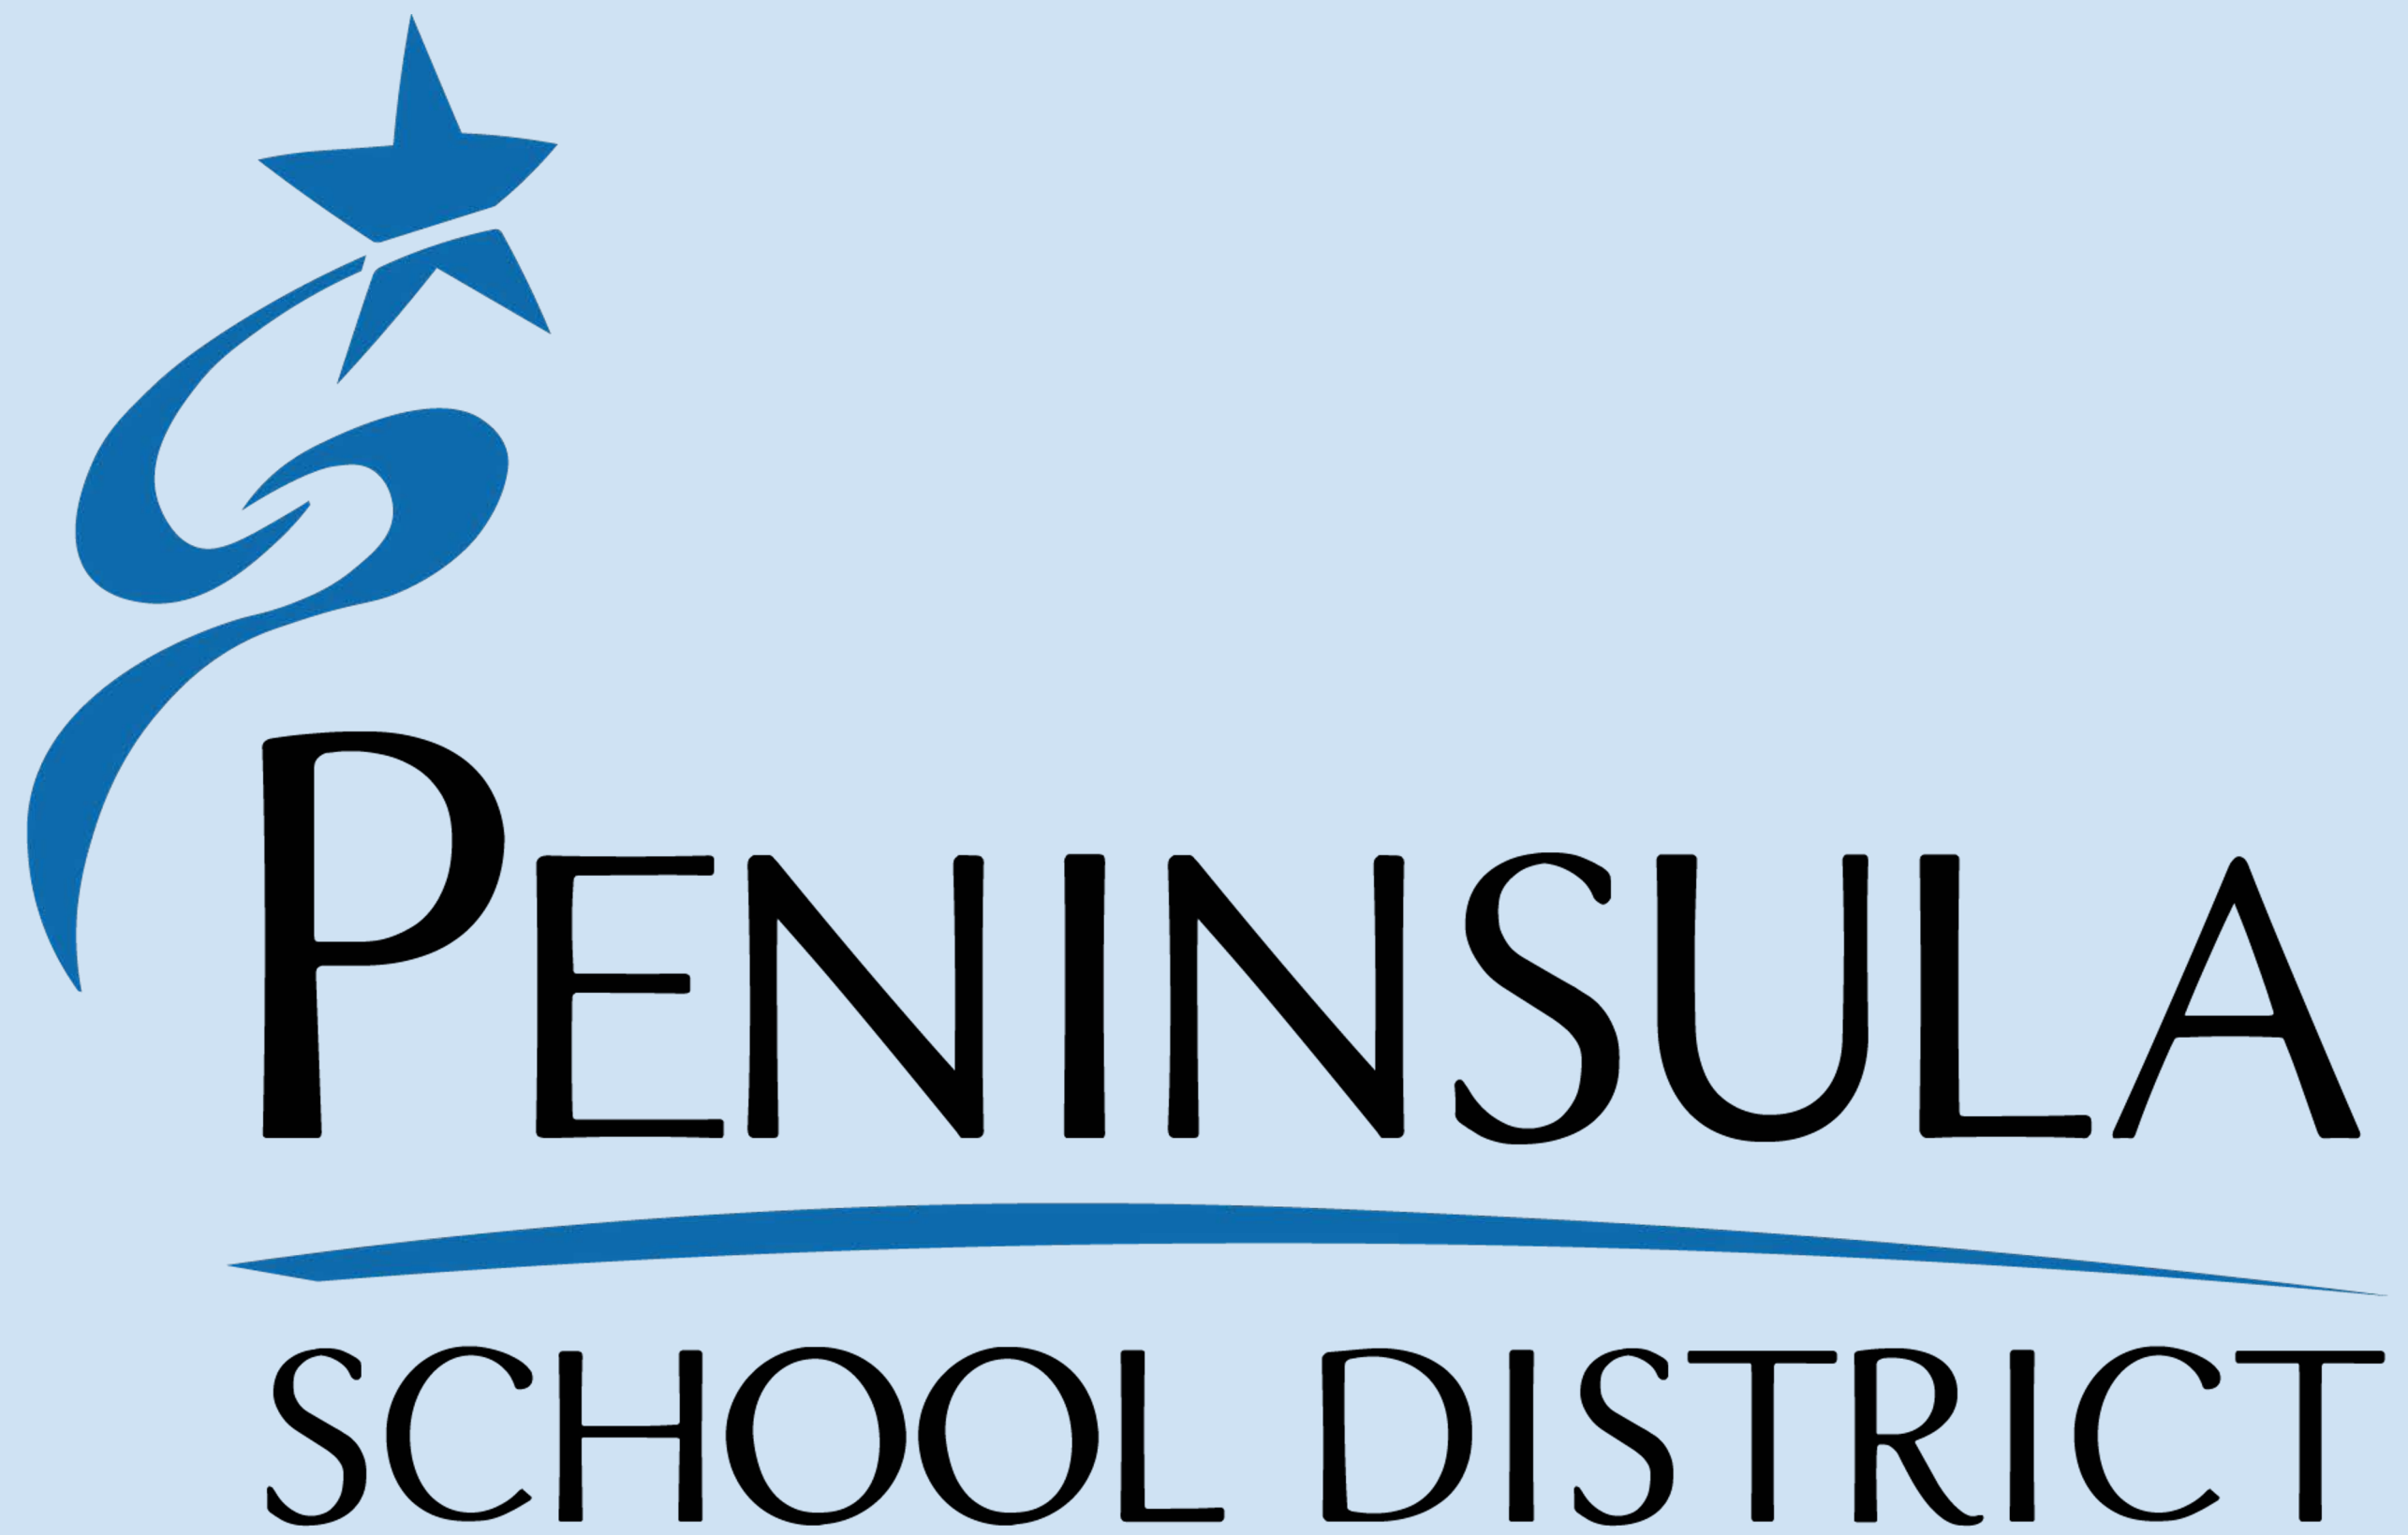

<https://chat.openai.com/share/0d6ac814-69ef-4824-87e2-ae6a189b6351>

“With your extensive knowledge of the K-12 educational system, I need you to help me to develop a exit survey to give to parents when they take their kids out of our system. I am not concerned with students who graduate, but I want to collect information on why parents might pull their kids out before graduation or not return after summer.”

“I want you to act as an HR executive in a K-12 Public Education System. I am going to give you a job description, and I need you to build me a rubric to screen applicants for the position. Let me know when you are ready for the job description.”

<https://chat.openai.com/share/eecd3557-c2cf-4665-b368-ef08888e938f>

“I need you to act as an expert in K12 public school districts and also emergency preparedness. Tomorrow I am giving a presentation to school principals around the incident command system and its implementation in a school district. Can you provide me topic ideas for my slides as well as subtopics for the presentation. It needs to include the basics of how the incident command system should work in a school setting and examples that tie back to schools. There should also be time for scenario planning and time to work with other principals in their same grade level groups.”
